Serializers

- Serializers.
- Views.
- Routers.

```
1
2  def render(self):
3      retval = self
4      if not self._is_rendered:
5          self.content = self.rendered_content
6          for post_callback in self._post_render_callbacks:
7              newretval = post_callback(retval)
8              if newretval is not None:
9                  retval = newretval
10     return retval
11
```

What are they all about

- Serializers.
